RE: Quantities Estimating Services- Mt Vernon City School District

Dear Mr. Thompson,

The Mount Vernon City School District is currently in the initial phase of its \$100 million dollar Capital Improvement Project, which includes the construction of 2 new schools and the renovation and or addition to 16 existing schools.

As the District's Construction Managers we aware of the excellent services your company provides and as a local business we would welcome you becoming a part of the team that makes this very important project a success.

Based on the excellent services your company provides for the three projects awarded to you, we are very interested in you providing quantities estimating services for the entire project. The remaining projects will be forthcoming over the next six months.

We look forward to working with you on this very important project to provide "World Class Education Facilities"

Should you have any questions please do not hesitate to call me.

Sincerely,
Turner / Luster Joint Venture

Noel Green
Program Manager
