Turner Construction Company
375 Hudson Street
6th Floor
New York, NY 10014
phone: 212.229.6000
fax: 212.229.6390

To Whom It May Concern:

Turner is a North America-based, international construction services company and a leading builder in a diverse range of market segments. We are America's #1 builder, successfully bidding on hundreds of jobs each year and completing an annual average of \$10 billion of construction on 1,500 projects.

On October 4, 2000, we were introduced to Quantities Inc., a company offering an innovative approach to quantity surveying and estimating with an attractive pricing structure. We were convinced, after an excellent presentation and explanation by Quantities' leader, Fred Thompson, that using their services would enhance our efficiency and save us time and money.

This belief proved to be true as we engaged Quantities Inc., on multiple key projects including:

- Mount Vernon City School District's \$100 million capital improvement project (a joint venture with Luster Construction) which included two new schools and renovations or additions to 16 existing schools. For this project, Quantities provided preconstruction services.
- Quantities provided us with estimating services for other projects such as Coney Island Ball Park, Hunts Point Market Redevelopment and Brooklyn College's West Quad construction (a multi-phase project totaling 235,000 SF of new construction).

Quantities Inc., offers a unique and serious alternative source for quantity takeoffs and estimating. We intend to continue using Quantities Inc., to complement the efforts of our in-house estimating staff.

Sincerely,

A handwritten signature in black ink, appearing to read "P. Davoren".

Peter J. Davoren
